

AHCIO Flip Charts

1. Dam operations' connection to category A/Power revenue funding – where in law or regulation is distinction that other MAs are paid by other funding?
 2. Loveless' Guidance Document
 3. Document may be inconsistent in categories (NNF removal)
 4. New principle and RIN 12.3.3
 5. Category for RIN 2.6.1
 6. 2.2.1 – accomplished?
 7. new language 2.6.2 – significance
 8. 2.2.1 – May not be the right question. “What population is desired in the CRE?”
 - FWS has authority
 - FWS hasn't set initial #.
 - Should the AMP set its own #?
 - FWS sets minimum.
 9. Role of AMP – recovery program?
 - No
 - We're not responsible for recovery – separate but bigger - can contribute
 10. Our goal is higher than FWS
 11. We don't want to manage for minimum population level.
 12. Why focus on power revenue funding.
 13. High risk to manage at minimum level.
 14. States' intent is downlisting – FWS has responsibility for setting #'s of fish.
 15. This program could focus on conservation.
 16. Agreement:
 - Sequence order – Category A

Disagreement

 - whether categories should be used
 17. Use of power revenues is discretionary.
- TWG – supports edits to INs?
- Disagrees on power revenues funding and categorizations

Broad /narrow construction of dam operations – bright line?
