Subject: Geomorphology Symposium Update

On June 9, a conference call took place between BOR, NPS and GCMRC, to discuss and resolve concerns about multiple geomorphology workshop/symposium planning efforts that were being proposed for this summer and fall. The parties agreed that a single planning effort made more sense, and that GCMRC would assume the lead role for organizing the geomorphology symposium. It was further agreed that BOR and NPS would collaborate with GCMRC in planning the symposium. A steering committee was established, consisting of Chris Kincaid, Mike Berry, Lisa Leap and Helen Fairley. This committee will be meeting shortly to discuss and finalize various details, including the dates, list of invitees, and wording of the final invitation letter.

More details will be coming your way soon. In the meantime, if you have questions or suggestions, please send them to the steering committee.

Please be sure to address all correspondence related to the geomorphology symposium to the entire committee: hfairley@usgs.gov, Lisa\_Leap@nps.gov, Chris\_Kincaid@nps.gov, and mberry@uc.usbr.gov.

Thank you!

Helen
