Please see the revised FY2011-12 GCDAMP Draft Budget and Workplan. The following changes were made:

2. The amount of \$300K from the Canyon Treatment Plan was moved to Compliance Documents in FY2011 as explained in the e-mail sent on June 9, 2010. Footnotes were added in the workplan detailing the above changes.
3. Minor text edits were made.

Monday's conference call is an opportunity to identify questions and concerns so that they can be addressed prior to the TWG Meeting on June 29-30, 2010.

All:

At the March 15-16, 2010 TWG Meeting, the subject ad hoc group was formed to: "Review the revised fall steady flow plan and determine what further revision of the Plan is necessary for approval by TWG at its June meeting." In service of this charge, we would like to schedule a conference call with you. I have reserved the following call-in line for two hours on Monday June 28, from 1:00 to 3:00 pm MDT: 1-801-524-3860 for Federal participants, 1-888-264-8816 toll free. I anticipate only needing 30 minutes or so for this initial call. I hope this can work for everyone, if not let me know and we can go from there. Attached is a copy of the draft Fall Steady Flow Plan that was distributed at the TWG Meeting. Thanks for your participation on this ad hoc.

Phone Numbers: 1-801-524-3860 (Federal participants); 1-888-264-8816 (non-Federal)
THERE IS NO PASSCODE.

Agenda:

9:00 Welcome and Introductions
9:05 Socioeconomics Ad Hoc Group Report
9:45 General Core Monitoring Plan Ad Hoc Group Report
10:30 WY 2011 Hydrograph Discussion
12:00 Adjourn

Now don't fall off your chairs but I've attached the minutes and action items from the last TWG meeting. I'm really trying to get these done more promptly after every meeting. HOWEVER, I need to re-number the attachments on the website as I just included the minutes from the June 14 BAHG/TWG combined conference call and the June 21 TWG webinar/conference as attachments to the June 29-30 meeting minutes. I thought it would be easier to approve just one set of minutes since they're all related. I will re-number and post the attachments tomorrow.

Hi Linda,

Please forward this message on to our TWG and AMWG members.

The two attached USGS reports were included in the recently published November 2008 symposium proceedings and pertain directly to Projects 1.C and Project 4.B of the March 2008 High Flow Experiment.

I wanted to make sure that the members were aware that these two reports are now completed and officially published as they were part of the DOI approved 2008 HFE Science Plan.

Results in the two attached papers were reported to AMWG at their February meeting. Although these articles were considered "in press" at that time.

Thank you for your help.

Ted

Listed below is the URL for the June 29-30, 2010, TWG Meeting page. There are still a couple of documents that need to be completed (webinar minutes and upcoming minutes for July 27 conference call) and posted and one that may need to be replaced. However, please let me know if there are any edits/errors you wish to make. I will be doing a "final" agenda and posting at a later date.
