

Discussion of Experimental Actions to be Considered in CY19 and Beyond

June 25, 2018

TWG Standing Responsibilities¹

1. “...consult with GCMRC in developing criteria and standards for monitoring and research programs...”
2. “...develop resource management questions for the design of monitoring and research administered by the [GCMRC]...”

¹ TWG Operating Procedures

Experimental Actions

Ripe for discussion

- TMF's
- Bug flows
- Spring HFE's

Discussion for a later day

- Fall HFE's
- Ext. dur. Fall HFE's
- Proactive Spring HFE's
- Vegetation treatments
- Mechanical removal in LCR reach
- Tier 1 HBC conservation actions
- LSF's

TMF's

- Resource management questions and monitoring criteria

Bug Flows

- Resource management questions and monitoring criteria

Spring HFE's

- Resource management questions and monitoring criteria
