LEES FERRY RECREATIONAL TROUT FISHERY MANAGEMENT RECOMMENDATIONS:

The Voice of Lees Ferry Recreational Anglers, Guides, and Businesses

AMWG Motion:

The AMWG requests the Secretary's Designee direct GCMRC to conduct a technical review of the Lees Ferry Recreational Trout Fishery Management Recommendations and report its findings to the TWG; and directs the TWG to evaluate the GCMRC review at their October 2015 meeting, and report its findings to AMWG at its February 2016 meeting.

Comments provided for the following sections:

- Aquatic Food Base Enhancement through Experimental Repatriation and “Bug Flows”
- Minimum Flows
- Experimental Trout Management Flows
- Marble Canyon Trout Fishery
- Stocking in the Event of a Catastrophic Fishery Failure
- Monitoring and Measurement of Management Triggers
