

# RECLAMATION

*Managing Water in the West*

Funding Opportunity Announcement No. BOR-DO-17-F028

## **WaterSMART: Title XVI Water Recycling Projects Under the WIIN Act**

**U.S. Department of the Interior  
Bureau of Reclamation  
Policy and Administration  
Denver, Colorado**

July 2017

## **Mission Statements**

The U.S. Department of the Interior protects America's natural resources and heritage, honors our cultures and tribal communities, and supplies the energy to power our future.

The mission of the Bureau of Reclamation is to manage, develop, and protect water and related resources in an environmentally and economically sound manner in the interest of the American public.

## Synopsis

<b>Federal Agency Name:</b>	Department of the Interior, Bureau of Reclamation, Policy and Administration
<b>Funding Opportunity Title:</b>	WaterSMART: Title XVI Water Recycling Projects Under the WIIN Act
<b>Announcement Type:</b>	Funding Opportunity Announcement (FOA)
<b>Funding Opportunity Number:</b>	BOR-DO-17-F028
<b>Catalog of Federal Domestic Assistance (CFDA) Number:</b>	15.504
<b>Dates:</b> (See FOA Sec. D.4)	Application due date: August 17, 2017 4:00 p.m. Mountain Daylight Time (MDT)
<b>Eligible Applicants:</b> (See FOA Sec. C.1)	Sponsors of water recycling projects (Project) that have a completed Title XVI Feasibility Study that Reclamation has reviewed and found to meet all of the requirements of Reclamation Manual Release WTR 11-01, and Reclamation has transmitted those findings to Congress.
<b>Recipient Cost Share:</b> (See FOA Sec. C.2)	75 percent or more of total Project costs.
<b>Federal Funding Amount:</b> (See FOA Sec. B.1)	Up to 25 percent of the total cost of planning, design, and/or construction that has either already been completed or will be conducted before September 30, 2019.
<b>Estimated Number of Agreements to be Awarded:</b> (See FOA Sec. B.1)	Approximately 4 to 8 awards, depending on the amount requested by each applicant.

## Section A: Funding Opportunity Description

### A.1. Program Information

The Water Infrastructure Improvements for the Nation Act (WIIN), P.L. 114-322, was enacted in December of 2016 to address water resources infrastructure that is critical to the Nation's economic growth, health, and competitiveness. Section 4009(c) of Subtitle J of WIIN includes amendments to Reclamation's Title XVI Water Reclamation and Reuse Program (Title XVI), established by P.L. 102-575 in 1992. Prior to the enactment of WIIN, funding for water recycling project construction could only be provided for congressionally authorized Title XVI projects. The WIIN amendments will allow new water recycling projects to be eligible to receive Federal funding

Water recycling is an essential tool in stretching the limited water supplies in the Western United States. Title XVI water recycling projects develop and supplement urban and irrigation water supplies through water reuse, thereby improving efficiency, providing flexibility during water shortages, and diversifying the water supply. These projects provide growing communities with new sources of clean water while promoting water and energy efficiency and environmental stewardship and increase water management flexibility, making our water supply more resilient. Title XVI water recycling projects are an important part of the WaterSMART Program. For further information on the WaterSMART Program, see [www.usbr.gov/WaterSMART](http://www.usbr.gov/WaterSMART).

### A.2. Objective of this Funding Opportunity Announcement (FOA)

The objective of this Funding Opportunity Announcement (FOA) is to invite sponsors of water recycling projects (Projects) to request cost-shared funding for the planning, design, and/or construction of those Projects.

### A.3. Statutory Authority

This FOA is issued under the authority of Title XVI of Public Law 102-575, as amended (43 United States Code [U.S.C.] 390h), including amendments in the Water Infrastructure Improvements for the Nation Act, Public Law 114-322.

This page is intentionally left blank.

## Section B: Award Information

### B.1. Total Project Funding

The fiscal year (FY) 2017 budget includes \$10 million for water recycling projects eligible under section 4009(c) of the WIIN Act (Projects). Applications submitted under this FOA also may be considered if other funding becomes available in FY 2017 or thereafter.

### B.2. Project Funding Limitations

The Federal share (i.e., Reclamation's share in addition to any other sources of Federal funding), of any water recycling project (Project) under Section 4009(c) of the WIIN Act, including any funding provided as a result of this FOA, shall not exceed 25 percent of the total Project cost.

Eligible applicants are invited to request funding for planning, design, and/or construction of Projects. This may include work planned through September 30, 2019, or completed work that was conducted after Reclamation's feasibility study review findings for the Project were transmitted to Congress. Although the evaluation criteria listed in this FOA will be applied to the Project as a whole, funding requests submitted under this FOA must be based on the expenditures already incurred or planned to be incurred by September 30, 2019.

All costs incurred by Reclamation related to the development and administration of any award under this FOA are considered part of the total Project costs, and the recipient will be required to provide cost share for these costs. All Reclamation administrative costs will also be included in the Federal cost share for the Project.

### B.3. Assistance Instrument

Awards will be made through a grant or cooperative agreement as applicable to the selected Project. If a cooperative agreement is awarded, the recipient should expect Reclamation to have substantial involvement in the Project.

Substantial involvement by Reclamation may include:

- Collaboration and participation with the recipient in the management of the Project and close oversight of the recipient's activities to ensure that the program objectives are being achieved. *Note: The development and administration of an award under this FOA is not considered substantial involvement.*
- Review, input, and approval at key interim stages of the Project.

At the request of the recipient, Reclamation can provide technical assistance after award of an agreement. If you would like to receive Reclamation technical assistance, you must account for these costs in your budget. To discuss available assistance and these costs, contact the program coordinator identified in *Section G. Agency Contacts*.

This page is intentionally left blank.

## Section C: Eligibility Information

### C.1. Eligible Applicants

Applicants eligible to receive an award under this FOA include sponsors of Projects that have a completed Title XVI Feasibility Study that Reclamation has reviewed and found to meet all of the requirements of [Reclamation Manual WTR 11-01: Title XVI Water Reclamation and Reuse Program Feasibility Study Review Process](#), and Reclamation has transmitted those findings to Congress by the date of the posting of this FOA. For a list of eligible applicants, please visit the Title XVI website, [www.usbr.gov/watersmart/title/feasibility.html](http://www.usbr.gov/watersmart/title/feasibility.html) which is also included as an attachment to this FOA. Eligibility does not entitle an applicant to any future Federal funding or create a new project authorization.

### C.2. Cost-Sharing Requirements

Applicants must be capable of cost sharing 75 percent or more of the total Project costs. Cost sharing may be made through cash or in-kind contributions from the applicant or third-party partners. Cost-share funding from sources outside the applicant's organization (e.g., loans or state grants) should be secured and available to the applicant prior to award. Please see Sections D.2.2.7. Project Budget and D.2.2.9. Official Resolution for more information regarding the documentation required to verify commitments to meet cost-sharing requirements.

#### C.2.1. Cost-Share Regulations

All cost-share contributions must meet the applicable administrative and cost principles criteria established in 2 Code of Federal Regulations (CFR) Part 200, available at the Electronic Code of Federal Regulations at [www.ecfr.gov](http://www.ecfr.gov).

#### C.2.2. Donations and In-Kind Contributions

Donations and in-kind contributions constitute the value of noncash contributions that benefit a federally assisted project. These contributions may be in the form of real property, equipment, supplies, and other expendable property, as well as the value of goods and services directly benefiting and specifically identifiable to the project or program. The cost or value of donations and in-kind contributions that have been or will be relied on to satisfy a cost-sharing or matching requirement for another Federal financial assistance agreement, a Federal procurement contract, or any other award of Federal funds may not be relied on to satisfy the cost-share requirement for an award under this FOA. The exception to this requirement is where the Federal statute authorizing a program specifically provides that Federal funds made available for such program can be applied to matching or cost sharing requirements of other Federal programs, such as awards to tribal organizations under Public Law (P.L.) 93-638, as amended. Applicants should refer to 2 CFR §200.434 for regulations regarding the valuation of donations and in-kind contributions, available at [www.ecfr.gov](http://www.ecfr.gov).

## C.3. Eligible Projects

### C.3.1 Eligible Projects

Projects eligible for funding under this FOA include:

- Projects that reclaim or reuse municipal, industrial, domestic, or agricultural wastewater.
- Projects that reclaim or reuse impaired ground or surface waters.

In order to be eligible for funding under this FOA, the Project must have a completed Feasibility Study that has been reviewed by Reclamation and found to meet all of the requirements of Reclamation Manual Release WTR 11-01. The findings of Reclamation's review must also have been transmitted to Congress by the date of the posting of this FOA. For a list of eligible applicants, please visit the Title XVI website, [www.usbr.gov/watersmart/title/feasibility.html](http://www.usbr.gov/watersmart/title/feasibility.html), which is also included as an attachment to this FOA. Eligibility does not entitle a project to any future Federal funding or create a new project authorization. The work that funding is being requested for must be ready to proceed within a reasonable amount of time once a financial assistance agreement is in place.

### C.3.2 Ineligible Projects

Projects not eligible for funding under this FOA include, but are not limited to:

- Water recycling projects that do not have a Reclamation reviewed Feasibility Study.
- Water recycling projects that have a Reclamation reviewed Feasibility Study that Reclamation determined did not meet the requirements of Reclamation Manual Release 11-01.
- Water recycling projects that have a Reclamation reviewed Feasibility Study, but Reclamation has not yet transmitted the findings of the review to Congress.
- Water recycling projects that are solely ocean or brackish water desalination.

### C.3.3 Length of Projects

Applicants can only request funding for work that is already completed or work that is planned through September 30, 2019. Funding for completed work can only be requested when that work was conducted after Reclamation's feasibility study review findings for the Project were transmitted to Congress.

## Section D: Application and Submission Information

### D.1. Address to Request Application Package

This document contains all information, forms, and electronic addresses required to obtain the information required for submission of an application.

If you are unable to access this information electronically, you can request paper copies of any of the documents referenced in this FOA by contacting:

By mail: Bureau of Reclamation  
Financial Assistance Support Section  
Attn: Irene M. Hoiby  
Mail Code: 84-27814  
P.O. Box 25007  
Denver, CO 80225

By e-mail: [ihoiby@usbr.gov](mailto:ihoiby@usbr.gov)

By telephone: 303-445-2025

### D.2. Content and Form of Application Submission

All applications must conform to the requirements set forth below.

#### *D.2.1. Application Format and Length*

The total application package shall be no more than **75** consecutively numbered pages. If an application exceeds **75** pages, only the first **75** pages will be evaluated. The font shall be at least 12 points in size and easily readable. Page size shall be 8½ by 11 inches, including charts, maps, and drawings. Oversized pages will not be accepted. The technical proposal and evaluation criteria section shall be limited to a maximum of **50** pages. The SF-424 forms, SF-LLL, letters of Project support, and official resolution will not be considered in the total page count.

Applications will be prescreened for compliance to the page number limitations.

#### *D.2.2. Application Content*

The application must include the following elements to be considered complete:

- Mandatory Federal Forms
  - SF-424 Application for Federal Assistance

## Funding Opportunity Announcement No. BOR-DO-17-F028

- SF-424C Budget Information—Construction Programs
- SF-424D Assurances—Construction Programs
- SF-LLL Disclosure of Lobbying Activities (if applicable)

SF-424, SF-424C, SF-424D, and SF-LLL forms may be obtained at <http://apply07.grants.gov/apply/FormLinks?family=15>.

- Title page
- Table of contents
- Technical proposal and evaluation criteria (limited to **50** pages)
  - Executive summary
  - Technical Project description
  - Evaluation criteria
- Environmental and cultural resources compliance
- Required permits or approvals
- Project budget
  - Funding plan and letters of commitment
  - Budget proposal
  - Budget narrative
- Letters of Project support (will not count toward the page limitation)
- Official resolution (will not count toward the page limitation)

### **D.2.2.1. Mandatory Federal Forms**

The application must include the following standard Federal forms.

#### ***SF-424 Application for Federal Assistance***

A fully completed SF-424 Application for Federal Assistance, signed by a person legally authorized to commit the applicant to performance of the Project must be submitted with the application. Failure to submit a properly signed SF-424 may result in the elimination of the application from further consideration.

#### ***SF-424 Budget Information***

A fully completed SF-424C Budget Information—Construction Programs must be submitted with the application.

#### ***SF-424 Assurances***

An SF-424D Assurances—Construction Programs, signed by a person legally authorized to commit the applicant to performance of the Project shall be included. Questions regarding whether to use SF-424B or SF-424D should be referred to the Grants Management Point of Contact under Section G. Agency Contacts. Failure to submit a properly signed SF-424D may result in the elimination of the application from further consideration.

## Section D: Application and Submission Information

### **SF-LLL**

A fully completed and signed SF-LLL Disclosure of Lobbying Activities is required if the applicant has made or agreed to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with an award that may be made under this FOA.

#### **D.2.2.2. Title Page**

Provide a brief, informative, and descriptive title for the proposed work that indicates the nature of the Project. Include the name and address of the applicant, and the name and address, e-mail address, and telephone of the project manager.

#### **D.2.2.3. Table of Contents**

List all major sections of the proposal in the table of contents.

#### **D.2.2.4. Technical Proposal and Evaluation Criteria**

The technical proposal and evaluation criteria (**50** pages maximum) includes:

- (1) Executive summary
- (2) Technical Project description
- (3) Evaluation criteria

#### ***Executive Summary***

The executive summary should include:

- The date, applicant name, city, county, and state
- A one paragraph summary of the work for which funding is being requested, including how funds will be used to accomplish specific Project activities.

#### ***Technical Project Description***

The technical Project description should describe the Project in its entirety. This description shall have sufficient detail to permit a comprehensive evaluation of the proposal.

#### ***Evaluation Criteria***

**(See *Section E.1. Technical Proposal: Evaluation Criteria* for additional details, including a detailed description of each criterion and subcriterion and points associated with each.)**

**The evaluation criteria portion of your application should thoroughly address each criterion and subcriterion in the order presented to assist in the complete and accurate evaluation of your proposal. The evaluation criteria should be applied to the entire Project.**

*It is suggested that applicants copy and paste the evaluation criteria and subcriteria in Section E.1. Technical Proposal: Evaluation Criteria into their applications to ensure that all necessary information is adequately addressed.*

#### **D.2.2.5. Environmental and Cultural Resources Compliance**

To allow Reclamation to assess the probable environmental and cultural resources impacts and costs associated with each application, all applicants must respond to the following list of questions focusing on the National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and Endangered Species Act (ESA) requirements. Please answer the following questions to the best of your knowledge. If any question is not applicable to the Project, please explain why. The application should include the answers to:

- Will the proposed Project impact the surrounding environment (e.g., soil [dust], air, water [quality and quantity], animal habitat)? Please briefly describe all earth-disturbing work and any work that will affect the air, water, or animal habitat in the Project area. Please also explain the impacts of such work on the surrounding environment and any steps that could be taken to minimize the impacts.
- Are you aware of any species listed or proposed to be listed as a Federal threatened or endangered species, or designated critical habitat in the Project area? If so, would they be affected by any activities associated with the proposed Project?
- Are there wetlands or other surface waters inside the Project boundaries that potentially fall under Clean Water Act (CWA) jurisdiction as “Waters of the United States”? If so, please describe and estimate any impacts the proposed Project may have.
- When was the water delivery system constructed?
- Will the proposed Project result in any modification of or effects to, individual features of an irrigation system (e.g., headgates, canals, or flumes)? If so, state when those features were constructed and describe the nature and timing of any extensive alterations or modifications to those features completed previously.
- Are any buildings, structures, or features in the irrigation district listed or eligible for listing on the National Register of Historic Places? A cultural resources specialist at your local Reclamation office or the State Historic Preservation Office can assist in answering this question.
- Are there any known archeological sites in the proposed Project area?

## Section D: Application and Submission Information

- Will the proposed Project have a disproportionately high and adverse effect on low income or minority populations?
- Will the proposed Project limit access to and ceremonial use of Indian sacred sites or result in other impacts on tribal lands?
- Will the proposed Project contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area?

*Note, if mitigation is required to lessen environmental impacts, the applicant may, at Reclamation's discretion, be required to report on progress and completion of these commitments. Reclamation will coordinate with the applicant to establish reporting requirements and intervals accordingly.*

***Under no circumstances may an applicant begin any ground-disturbing activities (including grading, clearing, and other preliminary activities) on a Project before environmental compliance is complete and Reclamation explicitly authorizes work to proceed. This pertains to all components of the proposed Project, including those that are part of the applicant's non-Federal cost-share. Reclamation will provide a successful applicant with information once environmental compliance is complete. An applicant that proceeds before environmental compliance is complete may risk forfeiting Reclamation funding under this FOA.***

### **D.2.2.6. Required Permits or Approvals**

Applicants must state in the application whether any permits or approvals are required and explain the plan for obtaining such permits or approvals.

Note that improvements to Federal facilities that are implemented through any Project awarded funding through this FOA must comply with additional requirements. The Federal government will continue to hold title to the Federal facility and any improvement that is integral to the existing operations of that facility. Please see P.L. 111-11, Section 9504(a)(3)(B). Reclamation may also require additional reviews and approvals prior to award to ensure that any necessary easements, land use authorizations, or special permits can be approved consistent with the requirements of 43 CFR §429, and that the development will not impact or impair project operations or efficiency.

### **D.2.2.7. Project Budget**

The Project budget includes:

- (1) Funding plan and letters of commitment
- (2) Budget proposal
- (3) Budget narrative

***Funding Plan and Letters of Commitment***

Describe how the non-Federal share of Project costs will be provided.

Project funding provided by a source other than the applicant shall be supported with letters of commitment from these additional sources. Letters of commitment shall identify the following elements:

- The amount of funding commitment
- The date the funds will be available to the applicant
- Any time constraints on the availability of funds
- Any other contingencies associated with the funding commitment

Commitment letters from third party funding sources should be submitted with your application. If commitment letters are not available at the time of the application submission, please provide a timeline for submission of all commitment letters. Cost-share funding from sources outside the applicant's organization (e.g., loans or state grants), should be secured and available to the applicant prior to award.

Reclamation will not make funds available for an award under this FOA until the recipient has secured non-Federal cost share. Reclamation will execute a financial assistance agreement once non-Federal funding has been secured or Reclamation determines that there is sufficient evidence and likelihood that non-Federal funds will be available to the applicant subsequent to executing the agreement.

***Note: Applicants are not required to have non-Federal cost-share funding secured for the entire Project at the time of award. Applicants must demonstrate sufficient evidence that non-Federal cost-share for the initial Federal obligation will be available at the time of award and must describe a plan and schedule for securing the remaining non-Federal cost share funding for the Project.***

The funding plan should include all planning, design, and construction costs for the Project components and activities that will be completed under an award under this FOA. The funding plan must include the following:

- How the applicants will make their contribution to the cost-share requirement, such as monetary and/or in-kind contributions and source funds contributed by the applicant (e.g., reserve account, tax revenue, and/or assessments).
- Describe any Project expenditures that have been incurred or may be incurred before the anticipated award date that you seek to include as Project costs. For each cost, identify:
  - The Project expenditure and the amount

**Section D: Application and Submission Information**

- Whether the expenditure is or will be in the form of in-kind services or donations
- The date of cost incurrence
- How the expenditure benefits the Project
- Provide the identity and amount of funding to be provided by funding partners, as well as the required letters of commitment.
- Describe any funding requested or received from other Federal partners. *Note: Other sources of Federal funding may not be counted towards the cost share unless otherwise allowed by statute.*
- Describe any pending funding requests that have not yet been approved, and explain how the Project will be affected if such funding is denied.

Please include the following chart (Table 1) to summarize all funding sources. Denote in-kind contributions with an asterisk (\*).

**Table 1.—Summary of Non-Federal and Federal Funding Sources**

FUNDING SOURCES	AMOUNT
<b>Non Federal Entities</b>

<b>Other Federal Subtotal</b>	
<b>REQUESTED RECLAMATION FUNDING</b>	

***Budget Proposal***

The budget proposal should include detailed information on the categories listed below and must clearly identify *all* Project costs, including those that will be contributed as non-Federal cost share. Unit costs must be provided for all budget items including the cost of work to be provided by contractors. The budget proposal should also include any in-kind contributions or donations of goods and

**Funding Opportunity Announcement No. BOR-DO-17-F028**

services that will be provided to complete the Project. It is strongly advised that applicants use the budget proposal format shown below on Table 2 or a similar format that provides this information. If selected for award, successful applicants must submit detailed supporting documentation for all budgeted costs.

## Section D: Application and Submission Information

### ***Budget Narrative***

Submission of a budget narrative is mandatory. An award will not be made to any applicant who fails to fully disclose this information. The budget narrative provides a discussion of, or explanation for, items included in the budget proposal. Include the value of in-kind contributions or donations of goods and services and sources of funds provided to complete the work that funding is being requested for. The types of information to describe in the narrative include, but are not limited to, those listed in the following subsections. Costs, including the valuation of in-kind contributions and donations, must comply with the applicable cost principles contained in 2 CFR Part §200, available at the Electronic Code of Federal Regulations ([www.ecfr.gov](http://www.ecfr.gov)).

### ***Salaries and Wages***

Indicate the program manager and other key personnel by name and title. Other personnel should be indicated by title alone. For all positions, indicate salaries and wages, estimated hours or percent of time, and rate of compensation. The labor rates must identify the direct labor rate separate from the fringe rate or fringe cost for each category. All labor estimates must be allocated to specific tasks as outlined in the applicant's technical project description. Labor rates and proposed hours shall be displayed for each task.

The budget proposal and narrative should include estimated hours for compliance with reporting requirements, including final Project and evaluation. Please see *Section F.3.2. Interim Performance Reports* for information on types and frequency of reports required.

Generally, salaries of administrative and/or clerical personnel will be included as a portion of the stated indirect costs. If these salaries can be adequately documented as direct costs, they should be included in this section; however, a justification should be included in the budget narrative.

### ***Fringe Benefits***

Identify the rates/amounts, what costs are included in this category, and the basis of the rate computations. Indicate whether these rates are used for application purposes only or whether they are fixed or provisional rates for billing purposes. Federally approved rate agreements are acceptable for compliance with this item.

### ***Travel***

Include purpose of trip, destination, number of persons traveling, length of stay, and all travel costs including airfare (basis for rate used), per diem, lodging, and miscellaneous travel expenses. For local travel, include mileage and rate of compensation. *Note: Travel costs incurred by contractors should not be included in this section, but can be included in the contract cost estimate.*

## Funding Opportunity Announcement No. BOR-DO-17-F028

### *Equipment*

If equipment will be purchased, itemize all equipment valued at or greater than \$5,000. For each item, identify why it is needed for the completion of the work proposed for funding and how the equipment was priced. Note: If the value is less than \$5,000, the item should be included under materials and supplies.

If equipment is being rented, specify the number of hours and the hourly rate. Local rental rates are only accepted for equipment actually being rented or leased.

If the applicant intends to use their own equipment for the purposes of the Project, the proposed usage rates should fall within the equipment usage rates outlined by the United States Army Corps of Engineers (USACE) within their *Construction Equipment Ownership and Operating Expense Schedule* (EP 1110-1-8) at [www.publications.usace.army.mil/USACE-Publications/Engineer-Pamphlets/u43545q/313131302D312D38](http://www.publications.usace.army.mil/USACE-Publications/Engineer-Pamphlets/u43545q/313131302D312D38).

*Note: If the equipment will be purchased and installed under a construction contract, the equipment should be included in the construction contract cost estimate.*

### *Materials and Supplies*

Itemize supplies by major category, unit price, quantity, and purpose, such as whether the items are needed for office use, research, or construction. Identify how these costs were estimated (i.e., quotes, past experience, engineering estimates, or other methodology).

### *Contractual*

Identify all work that will be accomplished by subrecipients, consultants, or contractors, including a breakdown of all tasks to be completed, and a detailed budget estimate of time, rates, supplies, and materials that will be required for each task. Identify how the budgeted costs for sub-recipients, consultants, or contractors were determined to be fair and reasonable. *Note: If a sub-recipient, consultant, or contractor is proposed and approved at the time of award, no other approvals will be required. Any changes or additions will require a request for approval.*

### *Other Expenses*

Any other expenses not included in the above categories shall be listed in this category, along with a description of the item and why it is necessary. No profit or fee will be allowed.

### *Indirect Costs*

Indirect costs that will be incurred during the development or construction of a Project, which will not otherwise be recovered, may be included as part of the applicant's Project budget. Show the proposed rate, cost base, and proposed

## Section D: Application and Submission Information

amount for allowable indirect costs based on the applicable cost principles for the recipient's organization. It is not acceptable to simply incorporate indirect rates within other direct cost line items.

If the applicant has never received a Federal negotiated indirect cost rate, the budget may include a *de minimis* rate of up to 10 percent of modified total direct costs. For further information on modified total direct costs, refer to 2 CFR §200.68 available at [www.ecfr.gov](http://www.ecfr.gov).

If the applicant does not have a federally approved indirect cost rate agreement and is proposing a rate greater than the *de minimis* 10 percent rate, include the computational basis for the indirect expense pool and corresponding allocation base for each rate. Information on "Preparing and Submitting Indirect Cost Proposals" is available from U.S. Department of the Interior (Interior), the National Business Center, and Indirect Cost Services, at [www.doi.gov/ibc/services/finance/indirect-cost-services](http://www.doi.gov/ibc/services/finance/indirect-cost-services).

### *Total Costs*

Indicate total amount of Project costs, including the Federal and non-Federal cost share amounts.

### **D.2.2.8. Letters of Support**

Please include letters from interested stakeholders supporting the Project. To ensure your proposal is accurately reviewed, please attach all letters of support/partnership letters as an appendix. (*Note: This will not count against the application page limit.*) **Letters of support received after the application deadline for this FOA will not be considered in the evaluation of the proposal.**

### **D.2.2.9. Official Resolution**

Include an official resolution adopted by the applicant's board of directors or governing body, or, for state government entities, a signed statement from an official authorized to commit the applicant to the financial and legal obligations associated with receipt of a financial assistance award under this FOA, verifying:

- The identity of the official with legal authority to enter into an agreement
- The board of directors, governing body, or appropriate official who has reviewed and supports the application submitted
- The capability of the applicant to provide the amount of funding and/or in-kind contributions specified in the funding plan
- That the applicant will work with Reclamation to meet established deadlines for entering into a grant or cooperative agreement

**An official resolution meeting the requirements set forth above is mandatory.** If the applicant is unable to submit the official resolution by the application deadline because of the timing of board meetings or other justifiable reasons, the official resolution may be submitted up to 30 days after the application deadline.

### **D.3. Unique Entity Identifier and System for Award Management**

All applicants (unless the applicant has an exception approved by Reclamation under 2 CFR §25.110[d]) are required to:

- (i) Be registered in System of Award Management (SAM) before submitting its application;
- (ii) Provide a valid unique entity identifier in its application; and
- (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency.

**Meeting the requirements set forth above is mandatory.** If the applicant is unable to complete registration by the application deadline, the unique entity identifier must be obtained and SAM registration must be initiated within 30 days after the application deadline in order to be considered for selection and award.

Reclamation will not make a Federal award to an applicant until the applicant has complied with all applicable unique entity identifier and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Reclamation is ready to make an award, Reclamation may determine that the applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant.

### **D.4. Submission Date and Time**

Application submission date deadline:

August 17, 2017, 4:00 p.m. Mountain Daylight Time

Proposals received after the application deadline will not be considered unless it can be determined that the delay was caused by Federal government mishandling.

*Please note that any application submitted for funding under this FOA may be subjected to a Freedom of Information Act (FOIA) request (5 U.S.C. §552, as amended by P.L. No. 110-175), and as a result, may be made publicly available. Following awards of funding, Reclamation will post all successful applications on*

## Section D: Application and Submission Information

*the Reclamation website after conducting any redactions determined necessary by Reclamation, in consultation with the recipient.*

### **D.4.1. Application Delivery Instructions**

Applications may be submitted electronically through Grants.gov ([www.grants.gov](http://www.grants.gov)) or hard copies may be submitted to either one of the following addresses. Under no circumstances will applications received through any other method (such as email or fax) be considered eligible for award.

By mail: Bureau of Reclamation  
Financial Assistance Support Section  
Attn: Irene Hoiby  
Mail Code: 84-27814  
P.O. Box 25007  
Denver, Colorado 80225

By express delivery: Bureau of Reclamation mail services  
Attn: Irene Hoiby  
Denver Federal Center  
Bldg. 67, Rm. 152  
6th Avenue and Kipling Street  
Denver, Colorado 80225

By courier services: Bureau of Reclamation  
Attn: Irene Hoiby  
Denver Federal Center  
Bldg. 56, Rm. 1000  
6th Avenue and Kipling Street  
Denver, Colorado 80225

### **D.4.2. Instructions for Submission of Project Application**

Each applicant shall submit an application in accordance with the instructions contained in this section.

#### **D.4.2.1. Applications Submitted by Mail, Express Delivery or Courier Services**

Please follow these instructions to submit your application by mail, express delivery, or courier services.

- Applicants shall submit one copy of all application documents for hardcopy submissions. Only use a binder clip for documents submitted - do not use staples or other binding.
- Hard copy applications may be submitted by mail, express delivery, or courier services to the addresses identified in this FOA.

## Funding Opportunity Announcement No. BOR-DO-17-F028

- Materials arriving separately will not be included in the application package and may result in the application being rejected or not funded. This does not apply to letters of support, funding commitment letters, or official resolutions. However, letters of support received after the application deadline for this FOA will not be considered in the evaluation of the proposal.
- Faxed and emailed copies of application documents will not be accepted.
- Do not include a cover letter or company literature/brochure with the application. All pertinent information must be included in the application package.

### D.4.2.2. Applications Submitted Electronically

If the applicant chooses to submit an electronic application, it must be submitted through Grants.gov ([www.grants.gov](http://www.grants.gov)). Reclamation encourages applicants to submit their applications for funding electronically through the URL: [www.grants.gov/applicants/apply-for-grants.html](http://www.grants.gov/applicants/apply-for-grants.html). Applicant resource documents and a full set of instructions for registering with Grants.gov ([www.grants.gov](http://www.grants.gov)) and completing and submitting applications online are available at: [www.grants.gov/applicants/apply-for-grants.html](http://www.grants.gov/applicants/apply-for-grants.html).

- Please note that submission of an application electronically requires prior registration through Grants.gov, which may take 7 to 21 days. Please see registration instructions at [www.grants.gov/applicants/apply-for-grants.html](http://www.grants.gov/applicants/apply-for-grants.html). **In addition, please note that the Grants.gov system only accepts applications submitted by individuals that are registered in SAM as both a user and an Authorized Organizational Representative (AOR).**
- Applicants have experienced significant delays when attempting to submit applications through Grants.gov. If you plan to submit your application through Grants.gov you are encouraged to submit your application several days prior to the application deadline. If you are a properly registered Grants.gov applicant and encounter problems with the Grants.gov application submission process, you must contact the Grants.gov Help Desk to obtain a case number. This case number will provide evidence of your attempt to submit an application prior to the submission deadline.

***Regardless of the delivery method used, you must ensure that your proposal arrives by the date and time deadline stated in this FOA. Applications received after this date and time due to weather or express delivery/courier performance will not be considered for award. Late applications will not be considered unless it is determined that the delay was caused by Federal Government mishandling or by a problem with the Grants.gov application system.***

## Section D: Application and Submission Information

### D.4.2.3. Acknowledgement of Application Receipt

If an application is submitted by mail, express delivery, or courier, Reclamation will notify you in writing that your application was received. If an application is submitted through Grants.gov, you will receive an email acknowledging receipt of the application from Grants.gov. In addition, Reclamation will notify you in writing that your application was successfully downloaded from Grants.gov.

## D.5. Intergovernmental Review

This FOA is not subject to Executive Order 12372, “Intergovernmental Review of Federal Programs.”

## D.6. Funding Restrictions: Pre-award Costs

Project costs incurred prior to the date of award may be submitted for consideration as an allowable reimbursable expense or as non-Federal cost share as long as they were incurred after Reclamation’s feasibility study review findings for the Project were transmitted to Congress.

Reclamation will review the proposed pre-award costs to determine if they are allowable in accordance with the applicable cost principles. To be considered allowable, any pre-award costs proposed for consideration under the new awards must comply with all applicable requirements under this FOA.

## D.7. Automated Standard Application for Payments Registration

All applicants must also be registered with and willing to process all payments through the Department of Treasury Automated Standard Application for Payments (ASAP) system. All recipients with active financial assistance agreements with Reclamation must be enrolled in ASAP under the appropriate Agency Location Code(s) and the Data Universal Number System (DUNS) Number prior to the award of funds. If a recipient has multiple DUNS numbers they must separately enroll within ASAP for each unique DUNS Number and/or Agency. All of the information on the enrollment process for recipients, including the enrollment initiation form and the enrollment mailbox can be found at [www.usbr.gov/mso/aamd/asap.html](http://www.usbr.gov/mso/aamd/asap.html).

Note that if your entity is currently enrolled in the ASAP system with an agency other than Reclamation, you must enroll specifically with Reclamation in order to process payments.

This page is intentionally left blank.

## Section E. Application Review Information

### E.1. Technical Proposal: Evaluation Criteria

The evaluation criteria portion should be addressed in the technical proposal section of the application. Applications should thoroughly address each criterion and any subcriterion in the order presented below. **Applications will be evaluated against the evaluation criteria listed below.** Note: It is suggested that applicants copy and paste the below criteria and subcriteria into their applications to ensure that all necessary information is adequately addressed.

**The evaluation criteria should be applied to the Project as a whole, not just the Project activities that will be completed over the next two years.**

#### *E.1.1 Evaluation Criterion 1—Water Supply (28 points)*

##### **Subcriterion No. 1a—Stretching Water Supplies (18 points)**

Points will be awarded based on the extent to which the Project is expected to secure and stretch reliable water supplies. Consideration will be given to the amount of water expected to be made available by the Project and the extent to which the Project will reduce demands on existing facilities and otherwise reduce water diversions.

1. How many acre-feet of water are expected to be made available each year upon completion of the Project? Please use the total Project water savings, not just water savings for the activities that will be completed over the next two years.
2. Will the Project reduce, postpone, or eliminate the development of new or expanded non-recycled water supplies?
3. How significantly will the demand on existing Federal water supplies be reduced? List the expected reduction to Federal water supply demand (in acre-feet) and the amount of water currently supplied directly or indirectly by a Federal facility to the Project sponsor. Provide calculations.
4. How will the Project reduce diversions from natural water courses? How will the Project reduce withdrawals from aquifers? Responses should be specific (including number of acre-feet) and should include the percentage by which diversions or withdrawals will be reduced.
5. What performance measures will be used to quantify actual benefits upon completion of the Project?

**Subcriterion No.1b—Contributions to Water Supply Sustainability  
(10 points)**

Points will be awarded for Projects that contribute to a more sustainable water supply.

1. Will the Project make water available to address a specific concern (e.g., water supply shortages due to climate variability, natural disaster, groundwater depletion, and/or heightened competition for limited water supplies)? Has the area served by the Project been designated as a disaster area by the state in the last four years? Consider the number of acre-feet of water to be made available. Explain the specific concern and its severity. Also explain the role of the Project in addressing that concern and the extent to which the Project will address it.
2. Will water made available by this Project continue to be available during periods of drought? To what extent is the water made available by this Project more drought resistant than alternative water supply options? Explain. Has the area served by the Project been identified by the United States Drought Monitor as experiencing severe, extreme, or exceptional drought at any time in the last four years?

***E.1.3. Evaluation Criterion 2—Environment and Water Quality  
(12 points)***

Points will be awarded based on the extent to which the Project will improve surface, groundwater, or effluent discharge quality; will restore or enhance habitat for nonlisted species; will address problems caused by invasive species; or will provide water or habitat for federally listed threatened or endangered species:

1. Will the Project improve the quality of surface water or groundwater? To what extent will the Project improve effluent quality beyond levels necessary to meet State or Federal discharge requirements?
2. Will the Project improve flow conditions in a natural stream channel? Will the Project restore or enhance habitat for non-listed species? If so, how?
3. Will the Project reduce threats to native fish or wildlife, their habitat, or water supply reliability, caused by invasive species? If so, how?
4. Will the Project provide water or habitat for federally listed threatened or endangered species? If so, how?

***E.1.4. Evaluation Criterion 3—Energy Efficiency (8 points)***

Points will be awarded based on the extent to which the Project addresses energy efficiency:

**Section E. Application Review Information**

1. Will completion of the Project lead to a reduction in energy consumption as compared to current water supply options? Provide calculations and describe assumptions and methodology.
2. Will the Project include any innovative components to reduce energy consumption or to recover energy?
3. How does the Project’s energy consumption compare to other water supply options that would satisfy the same demand as the Project?

**E.1.5. Evaluation Criterion 4—Economic Benefits (35 points)**

**Subcriterion No. 4a—Cost Per Acre-Foot (10 points)**

Points will be awarded based on the cost per acre-foot of water expected to be delivered upon completion of the Project and how the cost of the Project compares to a nonrecycled water alternative. Please use costs related to the entire Project, not just the cost of work over the next two years.

1. Reclamation will calculate the cost per acre-foot of water produced by the Project using information provided by project sponsors. Please provide the following information for this calculation:
  - (a) The total estimated construction costs, by year, for the Project (include all previous and planned work)

	Calendar Year	Construction Cost
1.		
2.		
3.		
4.		
5.		

	Calendar Year	Construction Cost
6.		
7.		
8.		
9.		
10.		

- (b) The total estimated or actual costs to plan and design the Project. Note: This should **not** include the cost to complete a feasibility study that meets the requirements of WTR 11-01.
- (c) The average annual operation and maintenance costs for the life of the Project. Note: This is an annual cost—not total cost.
- (d) The year the Project will begin to deliver recycled water.
- (e) The projected life (in years) that the Project is expected to last. Note: this should be measured from the time the Project starts delivering water.
- (f) All estimated replacement costs by year.

**Funding Opportunity Announcement No. BOR-DO-17-F028**

	Description of Replacement Requirement	Year	Cost
1.			
2.			
3.			
4.			
5.			
6.			
7.			
8.			
9.			

(g) The maximum volume of water (in acre-feet) that will be produced upon completion of the Project

2. Compare the cost per acre-foot of the Project to the cost per acre-foot of one nonrecycled water alternative that would satisfy the same demand as the Project. Provide the cost per acre-foot for one nonrecycled water alternative that would satisfy the same demand. Reclamation will compare the cost per acre-foot that it calculates using the information requested in question No. 1 to the cost per acre-foot for the nonrecycled water alternative provided by the Project sponsor.

**Subcriterion No. 4b—Economic Analysis (25 points)**

Points will be awarded based on the analysis of the Project’s benefits relative to the Project’s costs. Please use costs related to the entire Project, not just the cost of work over the next two years.

3. Summarize the economic analysis performed to meet the requirements of Reclamation’s Directive and Standard, *Title XVI Water Reclamation and Reuse Program Feasibility Study Review Process*, WTR 11-01, as well as any additional information or analysis available. This should include information on the Project’s estimated costs and benefits and cost effectiveness. This may include consideration of the conditions that exist in the project area and the potential water supply alternatives. Points will be awarded based on the benefit cost ratio and cost effectiveness of the Project.
4. Some Project benefits may be difficult to quantify. Describe any economic benefits of the Project that are not captured above or that are difficult to quantify. Points will be awarded based on the potential economic impact of the Project-related benefits.

***E.1.6. Evaluation Criterion 5—Reclamation’s Obligations and Benefits to Rural or Economically Disadvantaged Communities (10 points)***

**Subcriterion No. 5a—Legal and Contractual Water Supply Obligations (5 Points)**

Points will be awarded for Projects that help to meet Reclamation’s legal and contractual obligations.

Explain how the Project relates to the mission of the Bureau of Reclamation and/or serves a Federal interest. Does the Project help fulfill any of Reclamation’s legal or contractual obligations such as providing water for tribes, water right settlements, river restoration, minimum flows, legal court orders, or other obligations?

**Subcriterion No. 5b—Benefits to Rural or Economically Disadvantaged Communities (5 Points)**

Points will be awarded based on the extent to which the Project serves rural communities or economically disadvantaged communities in rural or urban areas.

1. Does the Project serve a rural or economically disadvantaged community? (A rural community is defined as a community with fewer than 50,000 people.)
2. Are any rural or economically disadvantaged communities within the Project sponsor’s service area?

***E.1.7. Evaluation Criterion 6—Watershed Perspective (7 Points)***

Points will be awarded based on the extent to which the Project promotes or applies a watershed perspective by implementing an integrated resources management approach, implementing a regional planning effort, or forming a collaborative partnership with other entities.

A watershed perspective generally means an approach to planning directed at meeting the needs of geographically dispersed localities across a region or a watershed that will take advantage of economies of scale and foster opportunities for partnerships. This approach also takes into account the interconnectedness of water and land resources, encourages the active participation of all interested groups, and uses the full spectrum of technical disciplines in activities and decision making.

1. Does the Project implement a regional or state water plan or an integrated resource management plan? Explain.

2. Does the Project promote collaborative partnerships to address water-related issues? Explain.

## **E.2. Review and Selection Process**

The Federal government reserves the right to reject any and all applications that do not meet the requirements or objectives of this FOA. Awards will be made for Projects most advantageous to the Federal government. Award selection may be made to maintain balance among the eligible projects listed in this FOA. The evaluation process will be comprised of the steps described in the following subsections.

### ***E.2.1. Initial Screening***

All application packages will be screened to ensure that:

- The applicant meets the eligibility requirements stated in this FOA.
- The applicant meets the unique entity identifier and SAM registration requirements stated in this FOA (this may be completed up to 30 days after the application deadline).
- The application meets the content requirements of the FOA package, including submission of a technical proposal, including responses to the evaluation criteria, a funding plan, budget proposal, and budget narrative.
- The application contains a properly executed SF-424 Application for Federal Assistance, form SF-424C Budget Information—Construction Programs, and form SF-424D Assurances—Construction Programs.
- The application includes an official resolution, adopted by the applicant's board of directors, governing body, or appropriate authorized official (this may be submitted up to 30 days after the application deadline).
- The application and funding plan meets or exceeds the minimum non-Federal cost share requirements identified in this FOA.

Reclamation reserves the right to remove an application from funding consideration if it does not pass all Initial Screening criteria listed above. An applicant that has submitted an application that is determined to be ineligible for funding will be notified along with other applicants, or sooner, if possible.

### ***E.2.2. Application Review Committee Review***

Evaluation criteria will comprise the total evaluation weight as stated in the *Section E. Application Review Information*. Applications will be scored against the evaluation criteria by an Application Review Committee (ARC), made up of

## **Section E. Application Review Information**

experts in relevant disciplines selected from across Reclamation. The ARC will also review the application to ensure that the proposed Project meets the description of eligible Projects, meets the feasibility study requirement and meets the objective of this FOA.

Prior to and during ARC review, Reclamation may contact applicants to request clarifications to the information provided, if necessary.

### ***E.2.3. Red-Flag Review***

Following the results of the ARC review, Reclamation offices will review the top-ranking applications and will identify any reasons why a proposed Project would not be feasible or otherwise advisable, including environmental or cultural resources compliance issues, permitting issues, legal issues, or financial position. Positive or negative past performance by the applicant and any partners in previous working relationships with Reclamation may be considered, including whether the applicant is making significant progress toward the completion of outstanding financial assistance agreements and whether the applicant is in compliance with all reporting requirements associated with previously funded projects.

In addition, during this review, Reclamation will address any specific concerns or questions raised by members of the ARC, conduct a preliminary budget review, and evaluate the applicant's ability to meet cost share as required.

### ***E.2.4. Managerial Review***

Reclamation management will prioritize Projects to ensure the total amount of all awards does not exceed available funding levels. Management will also ensure that all Projects meet the scope, priorities, requirements, and objectives of this FOA. Management may also prioritize Projects to ensure that multiple project types are represented. After completion of the Managerial Review, Reclamation will notify applicants whose proposals have been selected for award consideration.

### ***E.2.5. Pre-Award Clearances and Approvals***

The following pre-award clearances and approvals must be obtained before an award of funding is made. If the results of all pre-award reviews and clearances are satisfactory, an award of funding will be made once the agreement is finalized (approximately one to three months from the date of initial selection). If the results of pre-award reviews and clearances are unsatisfactory, consideration of funding for the Project may be withdrawn.

#### ***E.2.5.1. Environmental and Cultural Review***

If the work planned to be completed prior to September 30, 2019, includes construction activities, Reclamation will forward the proposal to the appropriate Reclamation Regional or Area Office for completion of environmental and cultural compliance. However, in most cases, planning and design does not involve ground disturbing activities and may proceed prior to completion of the environmental and cultural review. The financial assistance agreement will describe how compliance will be carried out and how the costs will be paid. Ground disturbing activities may not occur until this second level of environmental analysis is completed.

***Note: Any construction costs incurred prior to the completion of environmental and cultural compliance are not eligible for reimbursement and cannot be used to meet the non-Federal cost share requirement.***

#### **E.2.5.2. Budget Analysis and Business Evaluation**

A Reclamation Grants Officer will also conduct a detailed budget analysis and complete a business evaluation and responsibility determination. During this evaluation, the Grants Officer will consider several factors that are important, but not quantified, such as:

- Allowability, allocability, and reasonableness of proposed costs
- Financial strength and stability of the applicant
- Past performance, including satisfactory compliance with all terms and conditions of previous awards, such as environmental compliance issues, reporting requirements, proper procurement of supplies and services, and audit compliance
- Adequacy of personnel practices, procurement procedures, and accounting policies and procedures, as established by applicable Office of Management and Budget (OMB) circulars

### **E.3. Federal Award Performance Integrity Information System**

Prior to making an award with a Federal total estimated amount greater than \$150,000, Reclamation is required to review and consider any information about the applicant that is in the designated integrity and performance system accessible through System of Award Management (SAM) (currently Federal Award Performance Integrity Information System [FAPIS]) (see 41 [U.S.C.] §2313). Applicants, at their option, may review information in the designated integrity and performance systems accessible through SAM and comment on any information about itself that a Federal awarding agency previously entered and is currently in the designated integrity and performance system accessible through SAM. Reclamation will consider any comments by applicants, in addition to the other information in FAPIS, in making a judgment about the applicants' integrity,

## **Section E. Application Review Information**

business ethics, and record of performance under Federal awards when completing the review of risk posed by applicants as described in 2 CFR §200.205 Federal awarding agency review of risk posed by applicants.

### **E.4. Anticipated Announcement and Federal Award Date**

Reclamation expects to contact potential award recipients and unsuccessful applicants in the fall of 2017 or slightly later if necessary.

This page is intentionally left blank.

## Section F: Federal Award Administration Information

### F.1. Federal Award Notices

Successful applicants will receive by electronic mail, a notice of selection signed by a Reclamation Grants Officer. This notice is not an authorization to begin performance.

### F.2. Administrative and National Policy Requirements

#### *F.2.1. Environmental and Cultural Resources Compliance*

All Projects being considered for award funding will require compliance with the NEPA before any ground-disturbing activity may begin. Compliance with all applicable state, Federal and local environmental, cultural, and paleontological resource protection laws and regulations is also required. These may include, but are not limited to, the CWA, ESA, NHPA; consultation with potentially affected tribes; and consultation with the State Historic Preservation Office. Note: Reclamation will be the lead Federal agency for NEPA compliance and will be responsible for evaluating technical information and ensuring that natural resources, cultural, and socioeconomic concerns are appropriately addressed. As the lead agency, Reclamation is solely responsible for determining the appropriate level of NEPA compliance. Further, Reclamation is responsible to ensure that findings under NEPA, and consultations, as appropriate, will support Reclamation's decision on whether to fund a project. **Environmental and cultural resources compliance costs are considered Project costs and should be included in the Project budget.**

*Under no circumstances may an applicant begin any ground-disturbing activities (e.g., grading, clearing, and other preliminary activities) on a Project before environmental and cultural resources compliance is complete and Reclamation explicitly authorizes work to proceed. This pertains to all components of the proposed Project, including those that are part of the applicant's non-Federal cost-share. Reclamation will provide a successful applicant with information once such compliance is complete. An applicant that proceeds before environmental and cultural resources compliance is complete may risk forfeiting Reclamation funding under this FOA.*

### ***F.2.2. Approvals and Permits***

Recipients shall adhere to Federal, state, territorial, tribal, and local laws, regulations, and codes, as applicable, and shall obtain all required approvals and permits. Recipients shall also coordinate and obtain approvals from site owners and operators.

### ***F.2.3. Reclamation Administrative Costs***

All costs incurred by Reclamation related to the development and administration of any award under this FOA are considered part of the total costs of the Project, and the recipient will be required to provide non-Federal cost share for Reclamation's administrative costs. These costs include, but are not limited to, salary, overhead, travel, and other costs directly or indirectly related to the award, as determined by Reclamation. Following the completion of each quarter of the fiscal year, Reclamation will provide the recipient with a statement of Reclamation's costs for the previous quarter. The recipient may request explanations or a review of the costs included in the statement; however, Reclamation's determination as to the validity of the costs will be final. The recipient's required non-Federal cost share for Reclamation's costs will be deducted from payments processed by Reclamation for any award issued under this FOA.

## **F.3. Reporting Requirements and Distribution**

If the applicant is awarded an agreement as a result of this FOA, the applicant will be required to submit the following reports during the term of the agreement.

### ***F.3.1. Financial Reports***

Form SF-425—Federal Financial Report must be submitted on at least a semiannual basis and with the final performance report.

### ***F.3.2. Interim Performance Reports***

The specific terms and conditions pertaining to the reporting requirements will be included in the financial assistance agreement.

Interim performance reports submitted on at least a semi-annual basis, that include the following information:

- A comparison of actual accomplishments to the milestones established by the financial assistance agreement for the period
- The reasons why established milestones were not met, if applicable

## Section F. Federal Award Administration Information

- The status of milestones from the previous reporting period that were not met, if applicable
- Whether the Project is on schedule and within the original cost estimate
- Any additional pertinent information or issues related to the status of the Project
- Photographs documenting the Project are also appreciated. Note: Reclamation may print photos with appropriate credit to the applicant.

### ***F.3.3. Final Performance Report***

Recipients will be required to submit a final performance report encompassing the entire period of performance. The final performance report must include, but is not limited to, the following information:

- A brief description of the components of the Project and the work completed, including each element of the scope of work and the work completed at each stage of the Project
- The goals and objectives of the Project and whether each of these was met, the reasons why goals and objectives were not met (if appropriate), and any problems, delays encountered in completing the Project, and whether or not the Project was completed within cost.
- Future tracking of Project benefits
- A description of how the Project demonstrates collaboration, stakeholder involvement or the formation of partnerships, if applicable
- Any other pertinent issues involving the Project

Please note that final reports are public documents and may be made available on Reclamation's website, [www.usbr.gov/watersmart/title](http://www.usbr.gov/watersmart/title).

## **F.4. Releasing Applications**

Following awards of funding, Reclamation may post all successful applications on the Reclamation website after conducting any redactions determined necessary by Reclamation, in consultation with the recipient.

This page is intentionally left blank.

## Section G: Agency Contacts

There will be no pre-application conference. Organizations or individuals interested in submitting applications in response to this FOA may direct questions to the Reclamation personnel identified below.

### G.1. Reclamation Financial Assistance Management Contact

Questions regarding application and submission information and award administration may be submitted to the attention of Irene Hoiby, Grants Management Specialist, as follows:

By mail: Bureau of Reclamation  
Financial Assistance Support  
Section Attn: Irene Hoiby  
Mail Code: 84-27814  
P.O. Box 25007  
Denver, Colorado 80225

By email: [ihoiby@usbr.gov](mailto:ihoiby@usbr.gov)

By phone: 303-445-2025

### G.2. Reclamation Program Coordinator Contact

Questions regarding applicant and project eligibility and application review may be submitted to the attention of Amanda Erath, Program Analyst, as follows:

By mail: Bureau of Reclamation  
Water Resources and Planning  
Attn: Amanda Erath  
Mail Code: 84-51000  
P.O. Box 25007  
Denver, Colorado 80225

By e-mail: [aerath@usbr.gov](mailto:aerath@usbr.gov)

By phone: 303-445-2766

## Section H: Other Information

The following is a brief overview of NEPA, NHPA, and ESA. This information is only relevant to proposals that include measurement, monitoring and field work. While these statutes are not the only environmental laws that may apply to water marketing strategies, they are the Federal laws that most frequently do apply. Compliance with all applicable environmental laws will be initiated by Reclamation concurrently, immediately following the initial recommendation to award a financial assistance agreement under this FOA. The descriptions below are intended to provide you with information about the environmental compliance issues that may apply to your projects and to help you budget appropriately for the associated compliance costs.

### H.1. National Environmental Policy Act

NEPA requires Federal agencies such as Reclamation to evaluate, during the decision-making process, the potential environmental effects of a proposed action and any reasonable mitigation measures. Before Reclamation can make a decision to fund an award under this FOA, Reclamation must comply with NEPA. Compliance with NEPA can be accomplished in several ways, depending upon the degree and significance of environmental impacts associated with the proposal:

Some projects may fit within a recognized **Categorical Exclusion (CE)** to NEPA (i.e., one of the established categories of activities that generally do not have significant impacts on the environment). If a project fits within a CE, no further NEPA compliance measures are necessary. Use of a CE can involve simple identification of an applicable **Interior CE** or documentation of a **Reclamation CE** using a **Categorical Exclusion Checklist (CEC)**. If a CE is being considered, Reclamation will determine the applicability of the CE and whether extraordinary circumstances (i.e., reasons that the CE cannot be applied) exist. That process can take anywhere from 1 day to about 30 days, depending upon the specific situation.

If the Project does not fit within a CE, compliance with NEPA might require preparation of an **Environmental Assessment/Finding of No Significant Impact (EA/FONSI)**. Generally, where no CE applies but there are not believed to be any significant impacts associated with the proposed action, an EA will be required. The EA is used to determine whether any potentially significant effects exist (which would trigger the further step of an **Environmental Impact Statement (EIS)**, below). If no potentially significant effects are identified, the EA process ends with the preparation of a FONSI. The EA/FONSI process is more detailed than the CE/CEC process and can take weeks or even months to complete. Consultation with other agencies and public notification are part of the EA process.

The most detailed form of NEPA compliance, where a proposed Project has potentially significant environmental effects, is completion of an **EIS and Record of Decision (ROD)**. An EIS requires months or years to complete, and the process includes considerable public involvement, including mandatory public reviews of draft documents. It is not anticipated that Projects proposed under this program will require completion of an EIS.

During the NEPA process, potential impacts of a Project are evaluated in context and in terms of intensity (e.g., will the proposed action affect the only native prairie in the county? Will the proposed action reduce water supplied to a wetland by 1 percent? or 95 percent?). The best source of information concerning the potentially significant issues in a Project area is the local Reclamation staff that has experience in evaluating effects in context and by intensity.

Reclamation has the sole discretion to determine what level of environmental NEPA compliance is required. If another Federal agency is involved, Reclamation will coordinate to determine the appropriate level of compliance. You are encouraged to contact your regional or area Reclamation office. See [www.usbr.gov/main/offices.html](http://www.usbr.gov/main/offices.html) with questions regarding NEPA compliance issues. You may also contact the Program Coordinator for further information (see *Section G. Agency Contacts*).

## **H.2. National Historic Preservation Act**

To comply with Section 106 of the NHPA, Reclamation must consider whether a proposed Project has the **potential to cause effects to historic properties**, before it can complete an award under this FOA. Historic properties are cultural resources (historic or prehistoric districts, sites, buildings, structures, or objects) that qualify for inclusion in the National Register of Historic Places. In some cases, water delivery infrastructure that is over 50 years old can be considered a historic property that is subject to review.

If a proposal is selected for initial award, the recipient will work with Reclamation to complete the Section 106 process. Compliance can be accomplished in several ways, depending on how complex the issues are, including:

- If Reclamation determines that the proposed Project does not have the potential to cause effects to historic properties then Reclamation will document its findings and the Section 106 process will be concluded. This can take anywhere from a couple of days to one month.
- If Reclamation determines that the proposed Project could have effects on historic properties, a multi-step process, involving consultation with the State Historic Preservation Officer and other entities, will follow. Depending on the nature of the Project and impacts to cultural resources, consultation can be complex and time consuming. The process includes:

- A determination as to whether additional information is necessary
  - Evaluation of the significance of identified cultural resources
  - Assessment of the effect of the Project on historic properties
  - A determination as to whether the Project would have an adverse effect and evaluation of alternatives or modifications to avoid, minimize, or mitigate the effects
  - A Memorandum of Agreement is then used to record and implement any necessary measures. At a minimum, completion of the multi-step Section 106 process takes about two months.
- Among the types of historic properties that might be affected by projects proposed under this FOA are **historic irrigation systems** and **archaeological sites**. An irrigation system or a component of an irrigation system (e.g., a canal or headgate) is more likely to qualify as historic if it is more than 50 years old, if it is the oldest (or an early) system/component in the surrounding area, and if the system/component has not been significantly altered or modernized. In general, proposed projects that involve ground disturbance, or the alteration of existing older structures, are more likely to have the potential to affect cultural resources. However, the level of cultural resources compliance required, and the associated cost, depends on a case-by-case review of the circumstances presented by each proposal.

You should contact your State Historic Preservation Office and your local Reclamation office's cultural resources specialist to determine what, if any, cultural resources surveys have been conducted in the Project area. See [www.usbr.gov/cultural/crmstaff.html](http://www.usbr.gov/cultural/crmstaff.html) for a list of Reclamation cultural resource specialists. If an applicant has previously received Federal financial assistance it is possible that a cultural resources survey has already been completed.

### H.3. Endangered Species Act

Pursuant to Section 7 of the ESA, each Federal agency is required to consult with the U.S. Fish and Wildlife Service (USFWS) or the National Oceanic and Atmospheric Administration (NOAA) Fisheries Service to ensure any action it authorizes, funds, or carries out is not likely to **jeopardize the continued existence of any endangered or threatened species or destroy or adversely modify any designated critical habitat**.

Before Reclamation can approve funding for the implementation of a proposed Project, it is required to comply with Section 7 of the ESA. The steps necessary for ESA compliance vary, depending on the presence of endangered or threatened species and the effects of the proposed Project. A rough overview of the possible course of ESA compliance is:

## Funding Opportunity Announcement No. BOR-DO-17-F028

- If Reclamation can determine that there are no endangered or threatened species or designated critical habitat in the Project area, then the ESA review is complete and no further compliance measures are required. This process can take anywhere from one day to one month.
- If Reclamation determines that endangered or threatened species may be affected by the Project, then a **Biological Assessment** must be prepared by Reclamation. The Biological Assessment is used to help determine whether a proposed action may affect a listed species or its designated critical habitat. The Biological Assessment may result in a determination that a proposed action **is not likely to adversely affect** any endangered or threatened species. If the USFWS/NOAA Fisheries Service concurs in writing, then no further consultation is required and the ESA compliance is complete. Depending on the scope and complexity of the proposed action, preparation of a Biological Assessment can range from days to weeks or even months. The USFWS/NOAA Fisheries Service generally respond to requests for concurrence within 30 days.
- If it is determined that the Project **is likely to adversely affect listed species**, further consultation (**formal consultation**) with USFWS or NOAA Fisheries Service is required to comply with the ESA. The process includes the creation of a **Biological Opinion** by the USFWS/NOAA Fisheries Service, including a determination of whether the Project would **jeopardize** listed species and, if so, whether any **reasonable and prudent** alternatives to the proposed Project are necessary to avoid jeopardy. Nondiscretionary **reasonable and prudent measures** and **terms and conditions** to minimize the impact of incidental take may also be included. Under the timeframes established in the ESA regulations, the Biological Opinion is issued within 135 days from the date that formal consultation was initiated, unless an extension of time is agreed upon.

The time, cost, and extent of the work necessary to comply with the ESA depends upon whether endangered or threatened species are present in the Project area and, if so, whether the Project might have effects on those species significant enough to require formal consultation.

ESA compliance is often conducted parallel to the NEPA compliance process and, as in the case of a CEC, documented simultaneously. The best source of information concerning the compliance with the ESA in a particular Project area is the local Reclamation environmental staff that can be helpful in determining the presence of listed species and possible effects that would require consultation with the USFWS or NOAA Fisheries Service. Contact your regional or area Reclamation office, [www.usbr.gov/main/offices.html](http://www.usbr.gov/main/offices.html) with questions regarding ESA compliance issues.
